## Estructura HTML & CSS

Estas estructuras nos demuestran como es que la pagina se verá uniformemente a través de las diferentes modalidades de uso.

El contenido de la pagina consta de párrafos, conjuntos de campos, listas sin orden, listas de detalles, y detalles, con resumen. Algunas secciones cuentan con un fondo de color blanco grisáceo, para diferenciar las diferentes secciones dentro de un mismo artículo.

# <fieldset> <dl> <details> <section>

Los subtítulos no llevan .selection\_2

Este es el CSS que va dentro de cada uno de los selectores mencionados:

```
.selection:hover, .selection:focus { /* Add hover effect on hover */
    background-color: #badbfe;
    box-shadow: 0 3px 8px rgba(0, 0, 0, 0.2);
    background-image: linear-gradient(to right, #caf0db, #a5b5d0);
    display: inline-block;
    border-radius: 10px; }
.selection_2:hover, .selection_2:focus { /* Add hover effect on hover */
    background-color: #24568a;
    box-shadow: 0 3px 8px rgba(0, 0, 0, 0.2);
    background-image: linear-gradient(to right, #caf0db, #a5b5d0);
    cursor: grab; }
```

': usamos un <span> como subtitulo, y un <br> después de cada enunciado,
Y al principio de los enunciados consecuentes usamos dos &nbsp; como sangría.

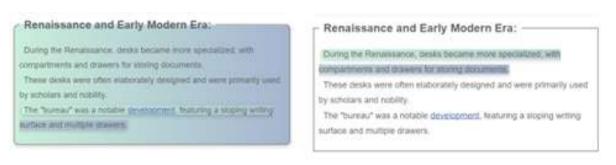

Cada enunciado tiene su propio NOVET **y** NOCUS. El enunciado va al interior de un <span>. El segundo enunciado y consecuentes sus <span> comienzan después del primer &nbsp;, para crear el efecto deseado de la sangría.

Ancient and Medieval
Times: In ancient civilizations
like Egypt and Greece, scribes
and scholars used simple wooden
surfaces to write on.
These <u>surfaces</u> were often
supported by trestles or stands. In
the Middle Ages, desks were often
large and heavy, used for both
writing and storage.

the Middle Ages, desks were often
large and heavy, used for both
writing and storage.

<fieldset>: usamos un <legend> como subtitulo. El contenido del conjunto de campos va dentro de un . Cada enunciado es un <span>, también un <br> es usado después de cada enunciado. Al principio de los enunciados después del primero usamos dos &nbsp; como sangría.

Cada enunciado tiene su propio nover y socus.

Aquí el Subtitulo lleva la clase selector, porque es un < legend>, dependiendo del diseño deseado.

: usamos un <div> para separar cada <dt> con sus respectivos <dd>.

En el subtitulo, <dt> usamos un <strong>.

Usamos un <span> para cada enunciado dentro de <dd>.

Cada enunciado tiene su propio :hover y :focus.

#### **Entry Level Computer User:**

Basic Hardware and Software: Understand the main components of a computer, such as the CPU, monitor, keyboard, and mouse. Also, learn about operating systems and basic software applications.

Internet Usage: Familiarize yourself with web browsers, search engines, and online safety practices. Learn how to navigate websites, perform searches, and recognize potential online threats.

**File Management:** Learn how to organize files and folders on your computer. Understand concepts like saving, copying, and deleting files.

**Keyboard Shortcuts:** Discover common keyboard shortcuts to improve your efficiency when navigating your computer and applications.
